**Evaluation Cycle-Spring** 

School Year- 2021-2022

School Surveyed/Visited- Cape Henlopen High School

School District- Cape Henlopen

As everyone knows, this last year has been like no other. Education has had to adapt to a very different model and so has the Delaware Advisory Council for Career and Technical Education (DACCTE). Our Council looks forward to going out and visiting CTE teachers and staff in our schools as we monitor programs. We are pleased to be able to make in person CTE program visits this school year.

Members of the Delaware Advisory Council on Career and Technical Education are given the responsibility, by State Law, to monitor and evaluate career and technical education programs in Delaware. The purpose of program monitoring is to bring about program improvement for our CTE students. During monitoring visits, a DACCTE staff and Council member are joined by a CTE Education Associate from DOE when possible. The team visits schools to gather information on career and technical education programs so that constructive program improvement recommendations can be formulated and communicated to those who implement the programs.

School monitoring visits typically take place between September and June on a two-year rotation of schools. DACCTE members, as advocates for career and technical education, approach each monitoring visit with an open mind. Our role is to provide an unbiased perspective to help educators. Specifically, Council members use a monitoring questionnaire provided by Council staff as an interview guide when talking with school personnel. After conducting all the interviews, DACCTE Staff analyze all questionnaires and information gathered during the visit. After analysis of all available data, recommendations for program improvement are formulated and communicated to the appropriate agencies, organizations, and individuals. The results of the Cape Henlopen HS CTE program visit are as follows:

• 8 teachers were interviewed, and 9 surveys were completed. 12 unduplicated contacts.

Survey/Interview Question	Data shows this area is being met	Data shows this area needs more focus	Data is inconclusive	Notes
Pathways have	<b>✓</b>			
sequenced courses	*			
Pathways are approved through DOE	$\checkmark$			
English, Math, Science, Social Studies Integration into CTE coursework	$\checkmark$			
Facilities	<b>√</b>

Advisory Committee in place and supporting CTE programs	<b>√</b>			
CTSO available and participating in Local, State, Regional, and National Level	<b>✓</b>			
Work-Based Learning Opportunities	✓			WBL Coordinator
Pathways prepare students for entry level positions after HS (credentialing, etc.)	<b>✓</b>			
Career Pathway Selection Process	$\checkmark$			
Education Plans contain Career Pathways		<b>✓</b>		Surveys report mostly unknown
Programs receive Federal/State funding (Perkins/509)	<b>√</b>			All staff report extremely difficult funding process.
Budget Availability/Development	$\checkmark$			
3 Year Budget/Long Terms Planning	✓			

Demographics of	<b>✓</b>		
classroom represent	•		
demographics of school			

## Conclusions

Teachers are enthusiastic and very supportive of their students and programs. They report that the programs are following Course Pathways/Program of Studies, Advisory Committees are meeting and relevant, Career and Technical Student Organizations are in place for students to actively participate, funding is available from all sources, demographics of the classroom represent the demographics of the school, and teachers are reflective of individual program strengths, weaknesses, and needs for improvement. Mrs. Miller (Principal) and her team are very enthusiastic and supportive of all CTE programs. Cape Henlopen High School is doing a great job of pursuing improvements to the CTE pathways through credentialling opportunities (Allied Health, ServSafe, etc.), participating with curriculum updates where needed, and expanding programs/opportunities relating to Work Based Learning.

## Recommendations

- Work-Based Learning- Teachers discussed the need for after school transportation for students to get to WBL sites and difficulty securing WBL sites due to pandemic rules, etc.
- Education Plans- Review School/District processes to assure Career Pathways are implemented in plans and communicated to stakeholders.
- Funding Processes- Teachers report that they receive funding through Perkins and 509, thereby
  meeting all required standards. However, all teachers interviewed reported that the process of
  receiving funding is arduous and overly complex. Many teachers are fronting their own funds in
  large amounts to purchase needed supplies and getting reimbursed and are unable to fully
  utilize the State Vendor list for materials. This process is of concern. Review funding processes
  for Perkins/509 to ensure transparency, appropriateness, and efficiency.

Educational programs visit by Mr. Stahl and Council Member Mr. Burkle.

Respectfully Submitted,

Christopher B. Stahl
